The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The international classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The international classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The international classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.

And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. In case a person has resided in the county where death occurred for less than one year, give address of FORMER RESIDENCE. The post office of the deceased may be in a county or state other than the county of actual residence.

IDAHO CODE ANNOTATED-CHAPTER 38, SECTION 206.

The personal and statistical particulars (items 1 to 16) shall be authenticated by the signature of the informant, who may be any competent person acquainted with the facts.

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The international classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.

A F F I D A V I T

STATE OF IDAHO)
(ss.
County of Washington)

I, A. S. Jones, on first being duly sworn on my oath, depose and say:

That I am the duly elected, qualified and acting Coroner for Washington County, State of Idaho;

That I investigated the facts surrounding the death of Charles N. Hewitt and find to the best of my belief that he died on or about the 22nd day of July, 1958, at the hour of approximately seven o'clock P.M. of said day by accidental drowning while employed as a reinforcing iron-worker at a point near the intake end of the diversion tunnel of the Brownlee Hydroelectric Project;

That as an incident to the investigation of the death of the said Charles N. Hewitt, I caused a post-mortem examination to be made of the remains of Richard Steppe, Richard Emig and Fred Spalding who were at the time and place above mentioned employed and working with the said deceased in a sixteen (16) foot wooden power-operated boat in said tunnel and who also accidentally died by suffocation due to drowning as was established by the post-mortem examination of their remains;

That although the remains of the three (3) above mentioned co-workers of the within concerned deceased were recovered and although diligent efforts have been made to recover the remains of the said Charles N. Hewitt, it has not been possible and it is believed to be impossible to recover his remains.

A. S. Jones
Washington County Coroner

Sworn and subscribed to before me this 15th day of September, 1958.

AFFIDAVIT

STATE OF IDAHO (

County of WASHINGTON (

I, Archie L. McArthur, being first duly sworn on my oath, depose and say:

That I am and was on the 22nd day of July, 1958, employed by the Morrison-Knudsen Company at the Brownlee Hydro-electric Construction Project in Washington County, Idaho, as a Boat Operator;

That at approximately seven o'clock P.M. on the 22nd day of July, 1958, there was an accident in the interior of the diversion tunnel near the intake end thereof in Washington County, State of Idaho, where Richard Emig, Richard Steppe, Fred Spalding, and Charles N. Hewitt, employees of the Morrison-Knudsen Company, employed as reinforcing iron-workers, were fatally injured by drowning as they were working in a sixteen (16) foot power-operated wooden boat;

That the bodies of Richard Emig, Richard Steppe, and Fred Spalding were recovered by approximately ten-thirty P.M.;

That at approximately eleven o'clock P.M. on that day one B. Mark Johnson, General Superintendent, one Clyde R. Bellows, Engineers Aid, and myself entered the diversion tunnel and proceeded immediately to the location of the above mentioned accident which occured near the intake end of said diversion tunnel;

That on arriving at the place of said accident we discovered that the above mentioned Charles N. Hewitt who was approximately forty-two (42) years of age was lodged in a submerged position near the intake of said tunnel;

That we were able to secure a line upon the remains of the said Charles N. Hewitt and were able to partially lift his remains from its submerged position and attempted for approximately thirty (30) minutes to recover the same and during this period of time were in close proximity and between one (1) and two (2) feet from said remains and know of my own knowledge that the said Charles N. Hewitt was at that time deceased;

That it was impossible to recover said remains and he became re-submerged and the line or rope securing him severed and the remains re-submerged by the turbulent action of the waters at the intake end of said tunnel which at that point were approximately eighteen (18) feet in depth;

That thereafter I participated in further attempts to recover the remains of Charles N. Hewitt which attempts included the efforts of divers in searching the tunnel floor in its entirety underwater, probing and grappling, which attempts have not been successful and it is my belief that if the remains are not buried in the sandy bottom of the tunnel, then the remains of Charles N. Hewitt are not at the present time in said diversion tunnel;

That I further believe and therefore state and affirm the said Charles N. Hewitt did at approximately the hour of seven o'clock P.M. on the 22nd day of July, 1958, die by accidental death and drowning and is now deceased.

McArthur, Boat Operator, and myself entered the diversion tunnel and proceeded immediately to the location of the above mentioned accident which occured near the intake end of said diversion tunnel;

That on arriving at the place of said accident we discovered that the above mentioned Charles N. Hewitt who was approximately forty-two (42) years of age was lodged in a submerged position near the intake of said tunnel;

That we were able to secure a line upon the remains of the said Charles N. Hewitt and were able to partially lift his remains from its submerged position and attempted for approximately thirty (30) minutes to recover the same and during this period of time were in close proximity and between one (1) and two (2) feet from said remains and know of my own knowledge that the said Charles N. Hewitt was at that time deceased;

That it was impossible to recover said remains and he became re-submerged and the line or rope securing him severed and the remains re-submerged by the turbulent action of the waters at the intake end of said tunnel which at that point were approximately eighteen (18) feet in depth;

That thereafter I participated in further attempts to recover the remains of Charles N. Hewitt which attempts included the efforts of divers in searching the tunnel floor in its entirety underwater, probing and grappling, which attempts have not been successful and it is my belief that if the remains are not buried in the sandy bottom of the tunnel, then the remains of Charles N. Hewitt are not at the present time in said diversion tunnel;

That I further believe and therefore state and affirm the said Charles N. Hewitt did at approximately the hour of seven o'clock P.M. on the 22nd day of July, 1958, die by accidental death and drowning and is now deceased.

That at approximately seven o'clock P.M. on the 22nd day of July, 1958, there was an accident in the interior of the diversion tunnel near the intake end thereof in Washington County, State of Idaho, where Richard Emig, Richard Steppe, Fred Spalding, and Charles N. Hewitt, employees of the Morrison-Knudsen Company, employed as reinforcing iron-workers, were fatally injured by drowning as they were working in a sixteen (16) foot power-operated wooden boat;

That at approximately eleven o'clock P.M. on that day one Archie L. McArthur, Boat Operator, one Clyde R. Bellows, Engineers Aid, and myself entered the diversion tunnel and proceeded immediately to the location of the above mentioned accident which occured near the intake end of said diversion tunnel;

That on arriving at the place of said accident we discovered that the above mentioned Charles N. Hewitt who was approximately forty-two (42) years of age was lodged in a submerged position near the intake of said tunnel;

The statement of facts relating to the disposition of the body shall be signed by the undertaker or person acting as such.

The medical certificate shall be made and signed by the physician, if any, last in attendance on the deceased, who shall specify the time in attendance, the time he last saw the deceased alive and the hour of the day at which death occurred. And he shall further state the cause of death, so as to show the course of disease or sequence of causes resulting in death, giving the primary cause, and also the contributory causes, if any, and the duration of each. Indefinite and unsatisfactory terms, indicating only symptoms of disease or conditions resulting from disease, will not be held sufficient for issuing a burial or removal permit; and any certificate containing only such terms as defined by the state registrar as indefinite and unsatisfactory, shall be returned to the physician for correction and definition. The international classification of the causes of death shall be used by all physicians in stating the cause of death in the medical certificate. Causes of death, which may be the result of either disease or violence, shall be carefully defined; and if from violence, its nature shall be stated, and whether (probably) accidental, suicidal, or homicidal.
